*(Name of Responsible Entity)* has considered the following alternatives to building in a *(floodplain and/or wetland)* and has determined that it has no practicable alternative. This activity will have no significant impact on the environment for the following reasons:

***(Give reasons why there is no significant impact)***

There are three primary purposes for this notice. First, people who may be affected by activities in *(floodplains and/or wetlands)* and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Second, an adequate public notice program can be an important public educational tool. The dissemination of information about *(floodplains and/or wetlands)* can facilitate and enhance Federal efforts to reduce the risks associated with the occupancy and modification of these special areas. Third, as a matter of fairness, when the Federal government determines it will participate in actions taking place in *(floodplains and/or wetlands)*, it must inform those who may be put at greater or continued risk.
